

OLIVETTI INFORMATION SERVICES AT MAXI YACHT WORLD CHAMPIONSHIP - ROLEX CUP

The age-old sport of yacht racing has taken on a high-tech flavor: once again OLIVETTI, dynamic Italian software company, is involved in the Maxi Yacht World Championship -Rolex Cup. In fact it was in charge of the management of data and results for the previous edition in 1983, 1985 and 1987.

Beyond the Maxi Series OLIVETTI has managed major sailing events such as the Admiral's Cup 1987, 1989, the America's Cup 1988 held in San Diego, California, as well as the 1986-87 edition held in Perth, Australia, the One Ton Cup (1989), the J24 European Championship (1989), the 12 Metre World Championship (1984-1987), the Formula 40 Championship (1987-1988), the Sardinia Cup (1982-1984-1986), the Finn Gold Cup (1984), the Scandinavian World Cup (1984), 5.5, Sunfish, Vaurien, 470, IYRU Division II, Windsurfer World Championship and many other IOR and dinghy championships.

In the next weeks OLIVETTI will be present at the Veteran Boat Rally and at the Star Class World Championship.

Beyond the pride of having been called to collaborate at the realization of such big events, it is also aware that our software can solve every need and situation. Focal point of all the programs is the capacity to spread out information and results in real time and produce graphics and statistics in order to allow everyone to understand better how a sailing race works.

The formula used by OLIVETTI up to now is the one based on the so called "service" and assures the best results for efficiency and professionalism. In fact we provide sophisticated equipment and qualified people either in computers or in sailing.
